# Evaluation of Peer Feedback from 2022-23

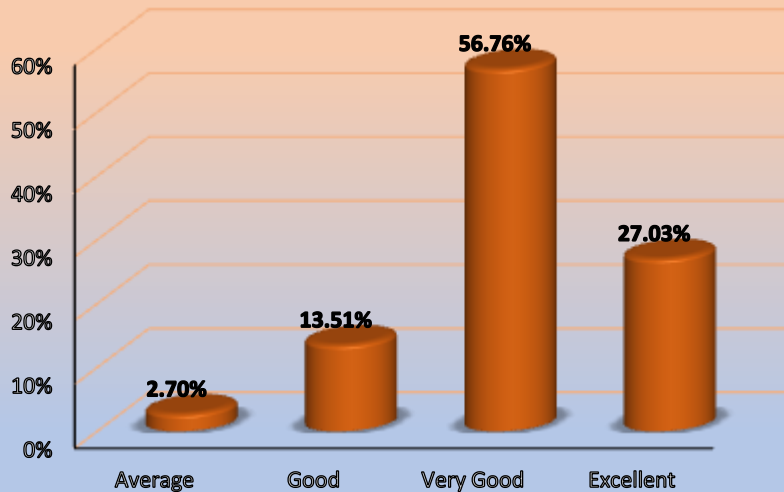

## 1. General discipline of the students

### Action Taken:

- Increased communication and awareness efforts regarding expectations for student behavior.
- Ensured that consequences for disciplinary infractions are enforced consistently and fairly. This helped to establish clear expectations and accountability for student behavior.

## 2. Technical competence of the students

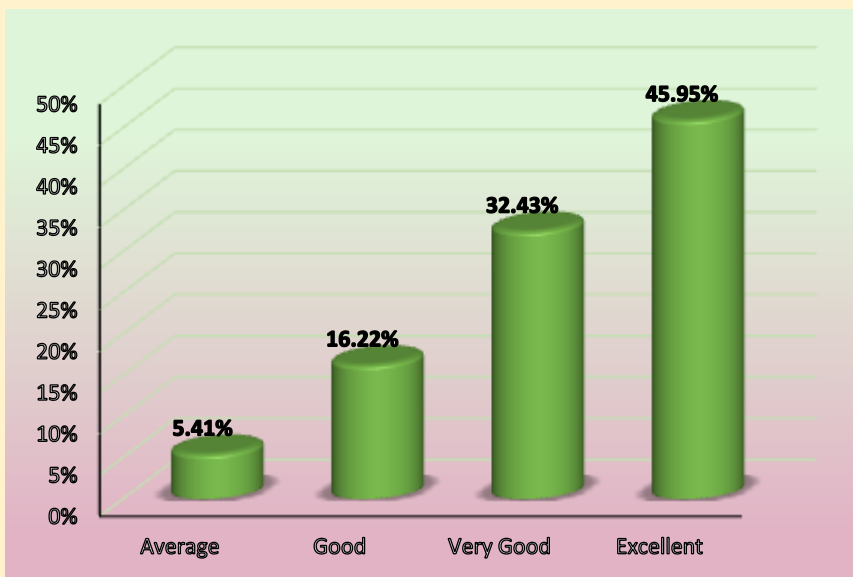

### Action Taken:

- Provided training and professional development opportunities for faculty members which enhanced their ability to teach technical subjects effectively.
- Ensured that students have access to relevant resources such as textbooks, online courses, software tools, and equipment that can support their learning and skill development.
- Encouraged project-based learning where students work in teams to solve real-world problems or develop innovative solutions.

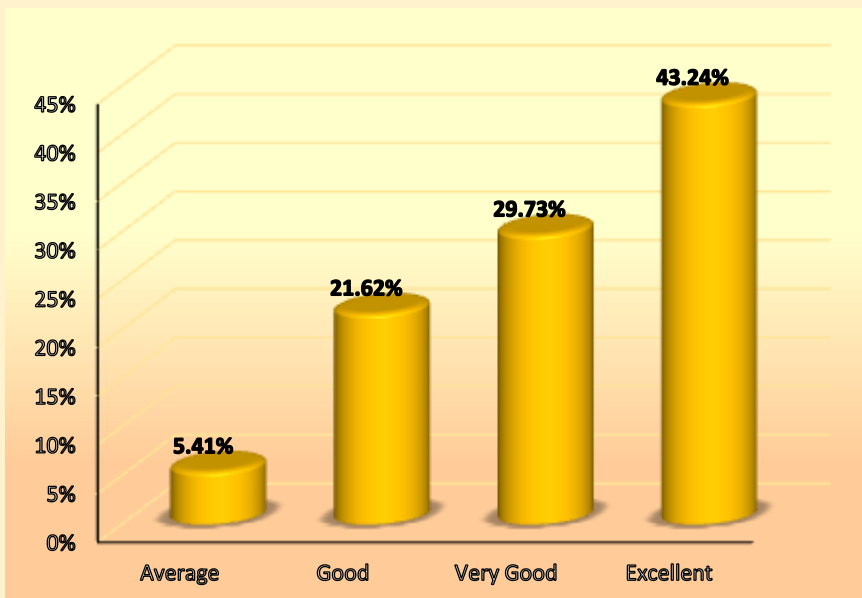

### 3. Classrooms and Lab facilities

#### Action Taken:

- Sought input from experts in educational facility design and technology to develop plans for improvement.
- Ensured that classrooms and labs are accessible to students with disabilities. This involved installing ramps, elevators, and specialized equipment to accommodate diverse needs.
- Integrated technology into classrooms and labs to enhance teaching and learning experiences.

### 4. Productive use of software/lab facilities/other digital resources

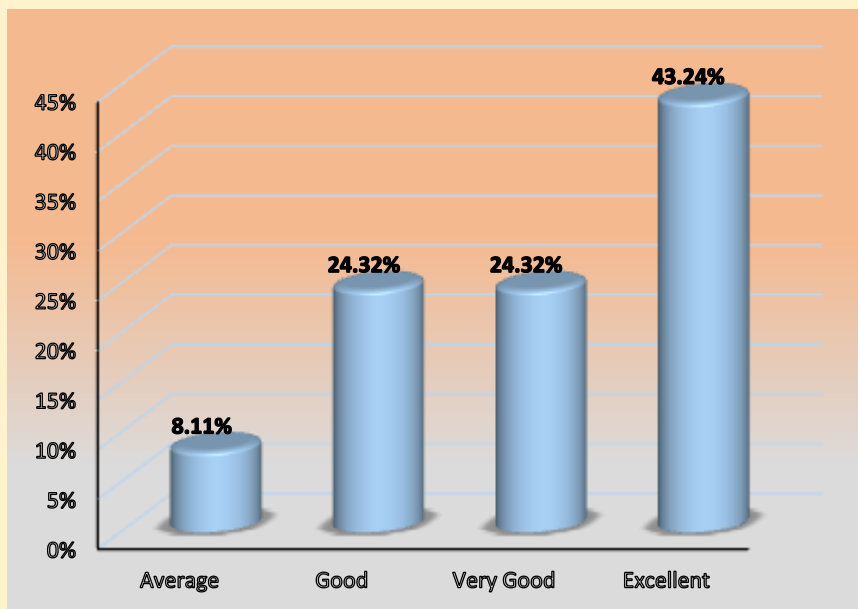

#### Action Taken:

- Evaluated the existing software, lab facilities, and digital resources available to students and faculty. Determined if there are any shortcomings or areas where improvements can be made.
- Ensured that software, lab facilities, and digital resources were accessible to all students, including those with disabilities.
- Established a system for regular maintenance and support of software, lab facilities, and digital resources to ensure uninterrupted availability and functionality.

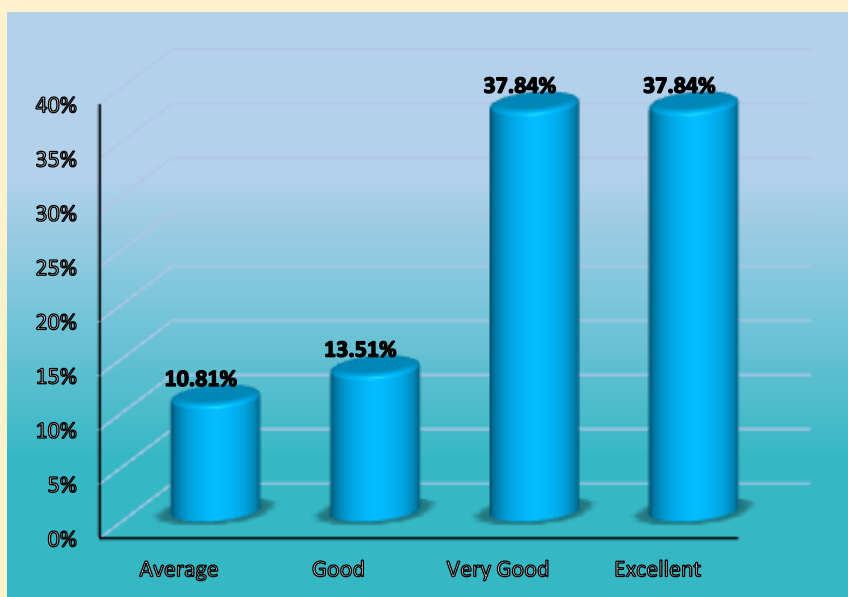

## 5. Your perception about the competence of Laboratory Staff.

### Action Taken:

- Implemented regular training and development programs for laboratory staff to update their skills and knowledge in their respective fields.
- Established channels for receiving ongoing feedback from laboratory staff regarding their training needs, challenges, and suggestions for improvement
- Continuously monitored the effectiveness of interventions implemented to improve the competence of laboratory staff.

## 6. Safety and security measures at the College

### Action Taken:

- Regularly assessed the campus infrastructure, facilities, and systems to identify potential safety hazards and vulnerabilities.
- The college reviewed and updated its emergency preparedness plans to ensure they are comprehensive and effective.
- The college launched awareness campaigns and educational initiatives to promote safety consciousness among the campus community.

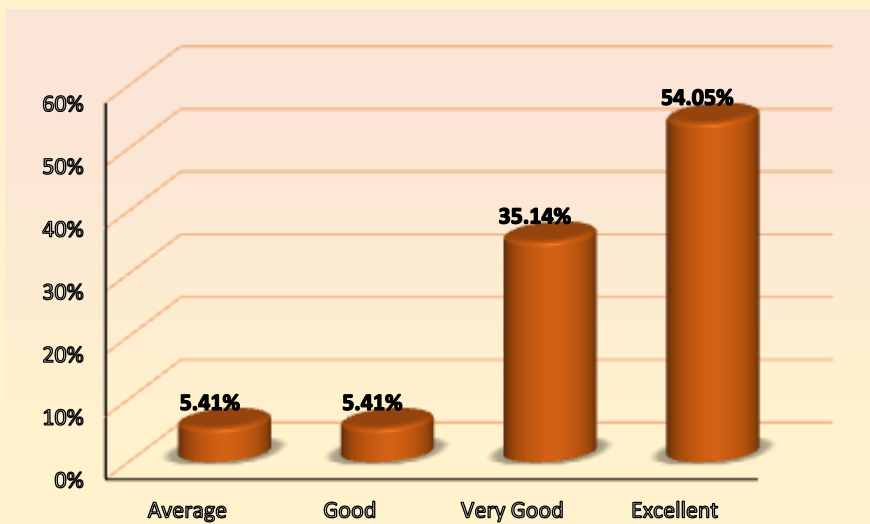

## 7. Professional standards of ethics and integrity

### Action Taken:

- Established ethics committees comprising representatives from various departments and disciplines to oversee ethical issues, provide guidance, and address concerns related to ethics and integrity within the college community..
- Regularly reviewed and updated policies, procedures, and initiatives related to ethics and integrity based on feedback, evaluations, and emerging ethical challenges.

## 8. Encouragements for new approaches and perspectives

### Action Taken:

- Facilitated cross-disciplinary collaboration by organizing interdisciplinary projects or workshops.
- Encouraged faculty members to model open-mindedness and receptivity to new ideas in their interactions with students.
- Provided resources and support for innovative projects and initiatives aimed at supporting projects that challenge conventional thinking and bring new perspectives to the table.

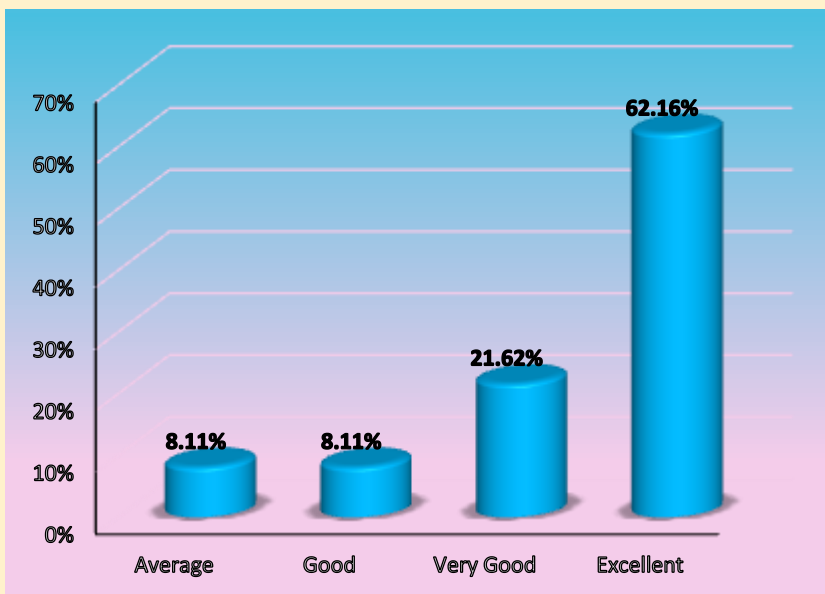

## 9. Overall infrastructure of the College

### Action Taken:

- Allocated sufficient funds for infrastructure development and maintenance.
- Upgraded existing facilities to meet modern standards and accommodate evolving technologies.
- Invested in upgrading technology infrastructure, including network systems, computer labs, audio-visual equipment, and online learning platforms.

## 10. Overall experience at the College

### Action Taken:

- Implemented advanced technology in classrooms, dormitories, and administrative services can streamline processes and enhance learning experiences.
- Renovated existing buildings and constructed new ones with state-of-the-art amenities which can significantly improve students' experience.
- Provided comprehensive student support services including academic advising, counseling, career services, and tutoring which helped students navigate challenges and make informed decisions about their academic and personal goals.
