

A workshop on 'Waste Management' was organized in Aggarwal College Ballabgarh on 6th August 2016 by Eco Club (Dharti Mitr) and NSS unit of the college. Principal Dr. Krishan Kant Gupta told that the aim of organizing this workshop is to make the youth aware of environment and the need of its conservation. The convener of the club Ms. Kiran Anand told the students to fulfil their responsibility towards conserving the environment and that if each one undertakes his duty of managing the waste of his house, then this problem can be easily solved. NSS officer Ms. Ritu told that the domestic waste can be used as manure. Mr. Lovekesh, Professor, Environment Science told to segregate organic and inorganic waste and that plastic and the tree leaves should not be burnt as they release harmful gases in the environment, which are harmful for our health.

The Eco club of the college is working towards generating awareness in the society.
