

PRESS RELEASE

To mark the 'World Cancer Day', an Awareness Talk was organised in Aggarwal College Ballabgarh by women cell on 3rd February, 2018 to spread the awareness about this deadly disease. Dr. Nishtha Gupta and Dr. Nupur Aggarwal were the main speakers. Dr. Nishtha Gupta is a Gynaecologist having 15 years of experience. She informed the girls about cervical cancer, its causes, symptoms and treatment. She also told about cervical vaccination as prevention is better than cure. Dr. Nupur Aggarwal, Gynaecologist and Infertility Specialist made the girl students aware about breast cancer. She asked the girls to examine themselves once in a month. She advised them to at once consult to doctors if any abnormality found. Both the doctors delivered their talk through power point and motivated the girls to shed their hesitation and shyness and speak about their problems. Students took keen interest and put forth their queries to which they answered satisfactorily. This talk was arranged by Dr. Geeta Gupta and Dr. Renu Maheshwari, incharges of women Cell under the able directions of Principal Dr. Krishan Kant Gupta.
