

On 11-11-2022 Department of Computer Science (Aggrawal College Ballabgarh) in association with 'Learn and Earn Digital' organized seminar on Blockchain Management. With the inspiration of College President Sh. Devender Gupta and College Principal Dr. Krishan Kant Gupta, many such programs are organized in the college time to time. The program was started by Dr. Sachin Garg, Head of the Department with his speech.

The Second session of this program on 'Blockchain Technology' was organized under the guidance of Dr. Sanjeev Gupta, Incharge of Self-Finance Wing-III as the first session was also successful. The main objective of the seminar was to make the youth aware of the crimes in the technical and business fields and how to prevent and secure financial losses. Mr. Sanju Thomas (Techno Commercial and Blockchain Expert) was present in the program as the keynote speaker. He talked about his experiences in the field of Blockchain Technology and discussed about its importance and how through this program a person can protect and control his money. He said that Blockchain is a record-keeping technology designed to make it impossible to hack the system or forge the data stored on it, thereby making it secure and immutable .About 180 students of various courses participated in this program actively. Curiosities were resolved through questions. Vote of thanks was given by Mrs Mohini Verma . The team members of 'Learn and Earn Digitally.com' Abhinav Mitra, Manju Thomas, Jaya, Pooja, Samar and convener Ashima Singh all actively participated in the event. Due to the efforts of the event secretaries Dr. Sachin Garg ,this seminar proved to be successful and worthwhile.
