About the Conference

Information and Communications Technology (ICT) has come out as one of the key players in combating the COVID-19 situation in our country. The proposed International Conference aims to exchange views on "**Role of Information and Communication Technology during Covid-19" (ICRICTC-2022).** One of the advance ICT like Drones is being used for enforcing austere quarantine and social distancing and for disinfection purposes. Mobile and web technology is helpful for spreading awareness about COVID-19, facilitating contact tracing, notifying individuals, real time tracking of crowds, remote monitoring of COVID-19 patients and much more. Our motive is to provide a National Platform to all the research scholars, academicians, scientists, engineers, industry researchers and students to exchange and share their experiences and research outcomes about all aspects of innovation and discuss the various issues and practical problems encountered and solutions adopted.
