

## **REPORT**

A group of 64 students of M.Sc. Chemistry 1<sup>st</sup> and 2<sup>nd</sup> year and B.Sc. Chemistry 2<sup>nd</sup> and 3<sup>rd</sup> year along with two faculty members Dr. Priyanka Kundu, Mr. Chander and lab attendant Mr. Sushil Kumar, under the able guidance of Dr. Krishan Kant (Principal), visited the National Council for Cement and Building Materials (NCCBM), Ballabgarh on 21<sup>st</sup> September, 2023. Dr. Priyanka Sehrawat, Assistant Professor of Chemistry, gave the important instructions to the students regarding their industrial visit and wished them good luck. Students interacted with Mrs. Rashmi Gupta Deputy Manager, NCB who briefed the students about the Cement industry. They came to know about various forms of cement, different ways in which the final forms are prepared and various ways of testing it. They also visited the well-equipped labs and saw various advanced instruments like CHNS Analyzer, X-Ray Fluorescence Spectrometer, Profoscope, Rebound hammer etc. They were also shown working of some of the highly advanced instruments and were told about the PG Diploma Course in Cement Technology to develop technological talent for the ever-growing cement industries. Students had great exposure and learnt various new things. The visit was concluded by students' interaction with Dr. L.P. Singh, Director NCB who shared his experience of working at NCB and encouraged the students to be a part of this industry.
