Online Education

1. Does all programs/courses were completed on time.		Yes	
2. Measures taken to complete the syllabus of courses and programs.		<p>In order to make the teaching and learning participative and inclusive, the college has been leveraging information technology. Every course teacher encourages the students to connect through meeting online particularly, in the evening and on the holidays. Teachers using smart boards record their lectures and share it with the students. During the last decade and particularly in last five years the teaching and learning processes, systems and practices in the college have been transformed from traditional pedagogy methods to student centric methods leveraging information technology tools. Black swan event like the COVID-19 pandemic underscores the potential of digitalization of processes and the college faculty has extensively utilized digital tools and platforms to impart online classes with the keen participation of the students and the syllabus in the respective courses could be completed in time.</p> <p>It is well known that in the years to come the scope of blended learning is bound to increase where both online and offline mode shall be in vogue to impart knowledge and skills. It is very necessary to enhance and sustain the digital capabilities of teaches. It will keep both the teachers and students involved and motivated. Beside domain knowledge, which is critical for quality teaching, key skills in digital and networked tools is equally crucial for teachers. We have to develop a kind of eco system where our teachers are ahead of the curves in embracing new technology and capabilities and hence need for up-skilling and re-skilling with modern digital pedagogy tools. There is need to focus on building teaches' digital skills capabilities and also softer skills of empathy and compassions so that we are able to fulfil our promise of sustaining quality education and our student who suffered so immensely during the pandemic are confident and capable. This will make faculty capable and confident and they will themselves use digital tools and platforms culminating in inclusive, participative and effective teaching, learning and evaluation. Hence, there is an urgent need to redesign and implement innovative policies to galvanize the teaching faculty.</p>
