

## **Students of Aggarwal College Ballabgarh Explore Real-World Industry Insights on Industrial Visit**

Students from Aggarwal College Ballabgarh embarked on an enriching industrial visit to Kokila Mehndi Pvt. Limited today ie, 1<sup>st</sup> September 2023 gaining first hand insights into the workings of the manufacturing sector. The visit, organized under the able guidance of Dr. Krishan Kant, Principal, aimed to bridge the gap between classroom learning and practical application. Accompanied by faculty members Dr. Geeta, Dr. Sarika, Dr Rekha and Dr Dimple, the group of 50 students were welcomed by the company's management team, who provided an overview of the manufacturing operations, products, and the role it plays in the local economy. The owners of the company Sh. Brij Bhushan Goyal, Mr. Ekansh Goyal and Mr. Dhruv Goyal interacted with the students and provided them an opportunity to tour various production units, witnessing the manufacturing processes and quality control measures in action. Students were also provided gift packs of the products manufactured there.

"This industrial visit was a unique learning experience," said Anjali, a third-year Arts student keen to learn and explore. "It helped us understand how theoretical concepts translate into real-world applications. Witnessing the machinery and processes we studied in action was truly insightful", said Divya of B Com Final.

The visit also included interactive sessions with industry professionals, allowing students to ask questions and gain insights into career prospects within the manufacturing sector. The college believes that such experiences are vital in preparing students for their future roles in the industry. Industrial visits provide them with exposure to cutting-edge technologies and industry practices. This industrial visit marked another successful initiative by the college to bridge academia and industry, equipping students with valuable knowledge and real-world perspectives.
