

REPORT

A group of 63 students of BSc NM, BSc Chem (H) and M.Sc. Chemistry along with two faculty members, Dr. Archana Chauhan, Ms. Tina Jain and lab attendant Mr. Ghanshyam Goyal, under the able guidance of Dr. Sanjeev Kumar Gupta (Acting Principal), visited the National Council for Cement and Building Materials (NCCBM), Ballabgarh on 24th October, 2024. Dr. Priyanka Sehrawat (HOD Chemistry), gave important instructions to the students regarding their industrial visit and wished them good luck. Students interacted with Dr. Vinay Mohan Aggarwal, Group Manager, Centre for Continuing Education Services (CCE), NCCBM who briefed the students about the Cement industry. They learned about various forms of cement, different ways in which the final forms are prepared, and various ways of testing it. They also visited the well-equipped labs and saw advanced instruments like CHNS Analyzer, X-Ray Fluorescence Spectrometer, Rebound hammer, etc. Mr. Ravinder Singh and Ms. Kalpana from NCCBM shown the working of some of the highly advanced instruments to students and were told about the PG Diploma Course in Cement Technology to develop technological talent for the ever-growing cement industries. Students had great exposure and learned various new things. The visit was concluded by interaction of students with Dr. L. P. Singh, Director NCCBM who shared his experience of working at NCB and encouraged the students to be a part of this industry.
